## Goldmedal Electricals launches entertainment system 'I-Dock Music Player'

NEWS & LAUNCHES

by PCQ Bureau | June 18, 2019 | 0 comments

**G**oldmedal Electricals, the leading home-grown fast moving electrical goods (FMEG) company has launched I-Dock music player under its GIFA range of modular products. The music player is a first-of-its-kind entertainment system that allows consumers to enjoy music by easily installing it within a switch plate.

Goldmedal's I-Dock player lets you charge your iPhone / iPod device as well as play music stored on your Apple devices and other MP3 players. Compact in dimension, the I-Dock Player can be installed directly into a flush box with Goldmedal's modular cover plates. Equipped with an in-built stereo amplifier, it enables direct speaker connection. An additional line output enables you to connect your music to any Hi-Fi or multi-room system. The 3.5 mm jack socket provided on the unit allows I-Dock to play music stored on any MP3 player.

Commenting on the launch, Kishan Jain, Director, Goldmedal Electricals said, "We are a technology-driven company that firmly believes in providing consumers with cutting-edge products that are truly ahead of their time and make a positive difference in the lives of consumers. We are continuously upgrading our products and solutions to cater to the ever-evolving needs of our customers. With the launch of I-Dock music player, we aim to provide both comfort and convenience to our customers."

Clubbed under the Audio World sub-brand, Goldmedal offers systems that can fit into a switch plate, fixed on walls & ceilings and portable music players that have charging docks. These systems are both innovative and technologically advanced and can be synced with mobile players, connected to home theater systems and music can be played from your iPhone even while the device charges. The product is priced at Rs. 6,100/- and can be purchased from retail stores as well as leading e-commerce platforms.
