The screenshot shows a web browser displaying an article on 'THE TECH PANDA' website. The article title is "'Owing to Its Unique and Intelligent Application, the Demand for IoT Appliances in India is Growing'". The author is Navarita Bora Sachder, and the article was posted on September 12, 2020, with 1.3K views. The article content discusses the growth of IoT in India, mentioning a Zinnov study that estimates 200-250 million connected devices by the end of 2019 and IoT investments reaching US\$ 15 billion. The article includes a large image of a hand interacting with a futuristic interface of IoT devices and icons like WiFi, home, and shopping cart. A sidebar on the right features a 'MARKET YOUR BUSINESS IN INDIA' banner and a 'POPULAR POSTS' section with three articles: 'iCyber Power: Pixmi An Eye in the Device that Detects Phishing and Closes it at Point of Click', 'Korean Blockchain payment firm Terra Launches Think with Terra Ideathon', and 'Swankhya Labs: 'We Foresaw the Software Defined Long Before the Industry Did and are Well Placed to Execute on 5G''.
