Must have products for a Smart Home setup for a new year and a new beginning

Published on December 22, 2021

A new year calls for new beginnings. Smart gadgets can make life more leisurely since the gadgets can be managed from any location by connecting them through a single interface, as well as taking care of home security with the touch of a finger. You may have spent endless hours thinking your home needs a big face-lift after a year spent mostly indoors. We've compiled a list of gadgets that are a perfect set of smart home products you can buy right now to help you get started on your smart home journey or complete the technology-laden interior of your dreams!

Godrej Security Solutions Spotlight

When you have the best home security camera, you can take comfort in knowing that your home is safe and secure even when you aren't present. With everyone going back slowly to the pre-covid routine, Spotlight, India's most secure home camera line, is one such product that can help you stay connected to your loved ones. Not only will you be notified if motion is detected, but you can also check in and monitor the camera's live stream at any time, allowing you the peace of mind as it lets you be at home, even when you are not, and assuring you that your family is safe. The Spotlight range is Wi-Fi enabled and can be controlled on a mobile app, making it convenient and user-friendly. The features include a panoramic 110-degree view of your house, two-way communication, 355 degree pan tilt feature, real-time movement alerts, clever motion tracking, ultra-clear night vision, hi-fidelity mic support for two-way clear

conversation, and intuitive one-touch mode. The range starts at INR 4499/- and can be purchased on e-commerce websites.
